1(d)(iv) A statement showing all sales, transfers, disposal, cancellation and/or use of treasury shares as at the end of the current financial period reported on.

There were no treasury shares which were sold, transferred, disposed, cancelled or used in the current financial period.

1(d)(v) A statement showing all sales, transfers, cancellation and/or use of subsidiary holdings as at the end of the current financial period reported on.

Not applicable.

2. Whether the figures have been audited or reviewed and in accordance with which auditing standard or practice.

The financial statements presented above have not been audited or reviewed by the Company's auditors.

3. **Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter).**

Not applicable.

4. **Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

The Group has applied the same accounting policies and methods of computation in the preparation of the financial statements as at 31 December 2017, except for the new and revised standards that are effective for annual periods beginning on or after 1 January 2018.

5. **If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

The Singapore Accounting Standards Council ("ASC") has introduced a new Singapore financial reporting framework that is equivalent to the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The new framework is referred to as the Singapore Financial Reporting Standards (International) ("SFRS(I)"). The Group's financial statements for the financial year ending 31 December 2018 will be prepared in accordance with SFRS(I) as issued by the ASC.

The Group has applied the same accounting policies and methods of computation on the financial statements for the current reporting period as that of the audited financial statements for the year ended 31 December 2017, except for the adoption of new/revised SFRS(I) applicable for the financial period beginning 1 January 2018 as follows:

SFRS(I) 1 *First-time Adoption of Singapore Financial Reporting Standards (International)*

SFRS(I) requires that the Group applies SFRS(I) on a retrospective basis and restatement of comparatives may be required because SFRS(I) 1 requires both the opening balance sheet and comparative information to be prepared using the most current accounting policies. SFRS(I) 1 provides mandatory exceptions and optional exemptions from retrospective application, but these are often different from those specific transition provisions in individual FRSs applied to FRS financial statements. The application of the mandatory exceptions and the optional exemptions in SFRS(I) 1 does not have any significant impact on the Group's financial statements.

SFRS(I) 9 Financial Instruments

SFRS(I) 9 introduces new requirements for classification and measurement of financial assets, impairment of financial assets and hedge accounting. Overall, the Group does not expect a significant change to the measurement basis arising from adopting the new classification and measurement model under SFRS(I) 9. The Group's existing hedges that are designated in effective hedging relationship continue to qualify for hedge accounting under SFRS(I) 9. SFRS(I) 9 requires the Group to record expected credit losses on all of its loans and trade receivables, either on a 12-month or lifetime basis. The Group adopts the simplified approach and records lifetime expected losses on all trade receivables. The impairment calculated using the expected credit loss model does not have a significant impact on the financial statements.

SFRS(I) 9 requires the Group and the Company to record expected credit losses on all of its debt securities, loans, trade receivables and plasma receivables, either on a 12-month or lifetime basis. The Group expects to apply the simplified approach and record lifetime expected losses on all trade receivables. For financial assets that contain significant financing component such as the Group's plasma receivables and the Company's amount due from subsidiary companies, the Group and the Company expects to apply general approach. Under the general approach, the Group and the Company assessed if there are any significant changes in credit risk of the receivables to determine whether to provide credit losses based on 12-month or lifetime basis. There is no material impact upon the application of the expected credit loss model in the year of initial application of the standard.

6. Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends; (a) based on weighted average number of shares and (b) on fully diluted basis (detailing any adjustments made to the earnings)

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:
- (a) Any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
 - (b) Any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

REVIEW OF INCOME STATEMENT

Overview

During the second quarter of 2018 ("2Q2018") and first half of the year ("1H2018"), the Group recorded an increase in net profit after tax of 34.3% to IDR 453 billion and 10.2% to IDR 726 billion, respectively. The improved net profit was mainly attributable to higher sales volume from the recovery in palm production during the period.

Revenue

Revenue increased by 22.4% to IDR 2,350 billion in 2Q2018 and 5.9% to IDR 4,258 billion in 1H2018 compared to the previous corresponding periods. This was mainly attributable to an increase in sales volume of Crude Palm Oil ("CPO") and Palm Kernel ("PK") arising from improved palm production compared to previous corresponding period.

In order to focus on its core business, the Group had ceased its biodiesel operation in late 2017.

Cost of Sales

Cost of sales comprised mainly cost in relation to plantation maintenance, harvesting, plantation overhead, depreciation and amortisation, milling, and Fresh Fruit Bunches ("FFB") purchased externally (including plasma and third parties).

Increase in the Group's cost of sales during the period was mainly attributable to higher production volume compared to previous corresponding period.

Interest Income

Interest income amounting to IDR 29 billion in 2Q2018 and IDR 66 billion in 1H2018 mainly consist of interest income earned from advances extended to the plasma farmers.

Selling expenses

Selling expenses mainly comprised of freight and loading expenses. Higher selling expenses during the period was mainly attributable to higher sales volume.

General and administrative expenses

General and administrative expenses increased by 9.9% to IDR 54 billion in 2Q2018 and by 9.2% to IDR 142 billion in 1H2018 mainly due to increase in salaries and employee benefits.

Foreign Exchange (Loss)/Gain

The Group recorded a net foreign exchange loss of IDR 33 billion in 2Q2018 and IDR 49 billion in 1H2018 respectively mainly due to translation losses on USD denominated borrowings in the Group's IDR financial statements as a result of the depreciation of IDR against USD during the current period.

Income tax expense

The Group recorded an increase in income tax expense to IDR 160 billion in 2Q2018 compared to IDR 135 billion in 2Q2017 and IDR 243 billion in 1H2018 compared to IDR 234 billion in 1H2017, due to higher profit before income tax for the period under review. Income tax expense also comprised of withholding tax expense on interest income received by the Company from its subsidiaries which previously recorded under other expenses.

REVIEW OF STATEMENT OF FINANCIAL POSITION

Non-Current Assets

As at 30 June 2018, the Group's total non-current assets increased by IDR 321 billion from IDR 13,383 billion to IDR 13,704 billion. This was mainly attributable to the increase in plasma receivables arising from advances given to the plasma farmers with respect to maintenance cost of immature plasma plantation.

Current Assets

As at 30 June 2018, the Group's total current assets increased by IDR 669 billion from IDR 1,906 billion to IDR 2,575 billion. Save for the increase in cash and cash equivalents which was explained in the cash flow section below, the net increase in the current assets was mainly due to:

- a) Increase of inventories by IDR 281 billion to IDR 724 billion as at 30 June 2018 mainly due to the increase in finished goods (CPO and PK) as a result of improved palm production, as well as fertiliser for second semester application.
- b) Increase of prepaid taxes by IDR 205 billion to IDR 590 billion as at 30 June 2018 mainly attributable to timing difference of corporate income tax installment offset against income taxes payable by the end of the year.

Current Liabilities

Increase in current liabilities by IDR 3,071 billion as at 30 June 2018 from IDR 1,278 billion to IDR 4,349 billion was mainly due to reclassification of some Revolving Credit Facilities ("RCF") loans and Islamic Medium Term Notes ("IMTN") from non-current liabilities in accordance with its maturity which will be due to within 12 months.

Non-Current Liabilities

As at 30 June 2018, the Group's total non-current liabilities decreased by IDR 2,272 billion from IDR 5,540 billion to IDR 3,268 billion mainly due to reclassification of some RCF loans and IMTN as explained under the section of current liabilities above.

The improved mark-to-market cross currency swap of IMTN has led to a decrease in the derivative financial liabilities by IDR 395 billion to IDR 512 billion; which will be reversed when the IMTN is due.

REVIEW OF STATEMENT OF CASH FLOW

The Group reported a net increase in cash and cash equivalents of IDR 112 billion as at 30 June 2018, bringing the cash and bank balances to IDR 333 billion, as follows:

- The Group recorded lower net cash flow generated from operating activities of IDR 387 billion in 2Q2018 and IDR 815 billion in 1H2018 mainly due to higher cash payment to suppliers, employee and for other operating expenses as well as higher income tax paid during the period.
- The Group recorded lower net cash used in investing activities of IDR 74 billion in 2Q2018 and IDR 386 billion in 1H2018 compared to the previous corresponding period mainly due to lower cash used for plantation assets as well as property, plant & equipment.
- Net cash used in financing activities reported by the Group of IDR 231 billion in 2Q2018 and IDR 317 billion in 1H2018 comprised mainly payment of FY2017 final dividend as well as repayment of some RCF bank loans.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The increase in the supply of palm oil had led to low palm oil prices. The recent push by Indonesia to expand the usage of B20 biodiesel into all vehicles and heavy machineries would provide support to palm oil prices.

The Group anticipates improvement in its production volume to continue into the second half of 2018 which will help to mitigate the impact of low palm oil prices. The Group will continue to strengthen its business strategies, improve cost management and increase contribution from newly matured plantations.
